ABOUT ME

Currently excelling as an in-house Web Photographer for The Range, Wilko & Homebase, I have a proven ability of taking ownership to create on-brand imagery whilst maintaining quality and efficiency. I am motivated by personal development and have an interest in gaining an understanding of all areas of the photographic studio and not just the day to day running of my job role. I have a strong foundation in studio management and organisation, taking lead when communicating across buying and trading teams.
